Stakeholder Comment Form with Comment Disposition**

Name of Deliverable:			Operational Concepts (All comments received as of 02/14/2006)	
Comment #:	Section:	Page:	Comment:	Disposition of Comment*:
SBCAG (11/18/05)-1			Add operations for Caltrans D7 re: traffic ino coord, CMS operations	1
-2			CHP in Ventura does dispatch for South County area	4 – no real breakout of CHP districts in Architecture
-3			VCTC operates Vista bus in South County area	1
-4			Need to add Operational Concepts for added Cities of Carpenteria and Guadalupe	1
-5			Need to reflect June 2006 transition to Call Box Answering Center	1
-6		33	Santa Maria does not manage County streets	4 – TMC inventory element removed negating related OCs
-7		54	SBCAG is not involved in setting fares	1
-8		57	SBMTD has no role in parking management	1
-9		57	SBMTD does not provide transit services role throughout Central Coast	4 – these are information sharing OCs (schedules, fares, passenger info for smart cards, etc.)
-10		57	“down scope” next bus only at one location → change from existing to planned	4 – if any exists, status is exists
-11		57	MTD only applies to South Coast, not all SB County	4 – Locality of services are w/in County hence listed in SB Co Architecture
-12		64	Change AVL status from Existing to Long-term Planned	1 – Planned
CTD5 (12/2/05)-1		4	511 only operational in the northern and southern parts of D5 and only with certain communications providers	1 & 4 – No longer a separate CC Regional Arch; to be distributed to each MPO Arch.
-2			SBCAG FSP is planned	1
SBCAG (1/26/06)-1		4	Mention the 800-427-ROAD phone # as info item	1
-2		9	Delete “Archived Data Systems” since CT will be involved with updating and maintenance of their ITS components within each MPO architecture	1 & 4 – reworded for new ITS Architecture structure
-3		23	Guadalupe’s signal system is Planned	1
-4a		36	Remove references to TMC	1 – changed to signal system operations
-4b		36	Delete the Surface Street Management – Central Coast Region item	1 – see 4a
-4c		36	Change language for Surface Street Management in SB Co to “Operate and maintain (surface street) traffic signal system (Existing)”	1 – see 4a
-5a		42	Stakeholder should be COLT	1
-5b		42	Status of resp. #2 (AVL) should be Planned	1

*Comment Disposition Key

1 = comment incorporated 2 = general statement 3 = to be addressed by future task 4 = comment not incorporated (with explanation)

Name of Deliverable:			Operational Concepts (All comments received as of 02/14/2006)	
Comment #:	Section:	Page:	Comment:	Disposition of Comment*:
-6a		54	SLORTA website exists, so Traveler Info item status should be Exists	1 (Note: applies to SLO ITS Arch.)
-6b		54	Add R&R section for SLORTA (serves Santa Maria)	1
-7		57	SBCAG not involved in apportioning transit fares; delete references	1 – see SBCAG (11/18/05)-7 above
-8a		60	Delete Parking Management roles	1 – see SBCAG (11/18/05)-8 above
-8b		60	Change status to Planned for responsibilities 1 & 3 for Transit Services in SB Co	4 - 1 – see SBCAG (11/18/05)-10 above
-9		61	Can this item be merged into City of SB Parking Management	1 – (Stakeholder removed from architecture)
-10		67	Status of AVL resp. #3 under Transit Services in SB Co is Planned	1 – see SBCAG (11/18/05)-12 above
-11		n/a	Add new stakeholder: Santa Ynez Valley Transit – fixed route transit (and applicable inventory, R&Rs, etc.)	1
AMBAG (2/8/06)-1			AMBAG Rideshare Program needs to be cross-referenced in OCs (and FRs)	1
-2			Should AMBAG website be added (including inventory)?	4 – to be added at next architecture maintenance
-3			Add transit services for AMBAG (pass through transit formula funds)	1
-4			Add traveler info for AMBAG (maintain tools for area-wide transportation info [e.g., ridematching, transit, etc.]	1 – related to -1
-5			Cities of Scotts Valley and Watsonville missing under Surface Street Management	1
-6			Add Collect/Manage/Share transportation data to AMBAG Region Archived Data System	1
-7			Add Develop/produce products and reports related to transportation data to AMBAG Region	1
CTD5 (2/14/06)-1	Trav. Info (CC Region)	4	Resp. should read: Collect information via CCTV, loop detectors, “Smart” Call boxes, as well as CHP and other information sources. Disseminate Regional and Statewide transportation information via 511, Caltrans and other websites, TV, CMS, EMS, HAR, etc. (Existing)”	1 – need to modify in all MPO architectures
-2	Arch. Data (CC Region)	9	Resp. statement 1) should have status of Proposed	4 – no status of “Proposed”; language changed in all MPO architectures to reflect participation in rather than performance of
-3	EM (CC Region)	9	Resp. statement 5) should be eliminated – D5 does not get call box transmissions	1 & 4 – Moved call box handling to PCAC
