

# **Connected Vehicle Architecture Workshop**

Wrap-up

June 16, 2016

# Workshop Agenda

---

- Introduction 9:00 AM
- CVRIA Overview 9:20 AM
- CVRIA Website Tour 9:50 AM
- National ITS Architecture / CVRIA Integration 10:20 AM
- Break 10:35 AM
- Attendee Feedback on CVRIA 10:50 AM
- SET-IT Software Tour 11:20 AM
- SET-IT Use Example 11:50 AM
- Wrap-up 12:20 PM
- Adjourn 12:30 PM

# Workshop Objectives

---

- Provide the latest information on the evolution of the Connected Vehicle Reference Implementation Architecture (CVRIA) and the Systems Engineering Tool for Intelligent Transportation (SET-IT)
- Present the approach for integrating the National ITS Architecture and CVRIA
- Gather feedback on the CVRIA including recommendations for future changes/ additions

# Next Steps

---

- Explore the CVRIA website
- Download and install the SET-IT software
- Get familiar with the software by defining a project architecture for a planned Connected Vehicle project
- Prepare for release of integrated ITS/CV Architecture
- Take the on-line CVRIA and SET-IT training

# Before Workshop Concludes

---

- Do you have any questions?
- Please turn in your feedback forms to one of the workshop facilitators
- Thank you for your attendance and participation!
